

Please carefully read our UPDATED COVID-19 Guidelines prior to your visit

We are excited to announce that face-to-face appointments are back! All of the staff here have missed you and there are many new faces for you to meet. There are more positive changes ahead as we will be expanding services and hours over the next month. Thank you for supporting our small business and making this possible. Please read our guidelines prior to your next appointment.

- **Face-to-face Appointments:** Entry will be limited to one client in an exam room at a time. Please call upon arrival. **Mask-wearing is required of both staff and clients.** Social distancing is recommended.
- **Curbside Appointments:** Alternatively, we will be happy to continue to serve all of your needs curbside. Please note this preference when making your appointment. Please call us upon your arrival, and we will send a team member to retrieve your pet from your car and bring your pet inside. Think of them as VIP valet service for your pet!
- **Open Air Appointments: will begin April 1st.** Weather allowing these appointments are another great option. Held at the discretion of staff. If the weather is not suitable your appointment will be completed as either of the above.
- **At this time, all purchases and other matters will remain curbside.** Please call when you arrive.
- If you are feeling unwell or may have been exposed to someone with COVID-19 please either arrange for someone else to bring your pet in or call to reschedule your preventative appointment.
